SKILLS

- Analytical Thinking

PROFILE

I possess a strong passion for JavaScript Full Stack Development and a dedication to crafting efficient and innovative web applications. My primary focus lies in utilizing cutting-edge front-end frameworks like React and Angular, while also leveraging my understanding of back-end technologies such as Node.js and Express.js. This expertise allows me to excel in constructing dynamic and user-friendly experiences.

2020– 2021
ESPRIT

PROJECTS

PETZY

(Backend: APIs through Node.js and MySql. Client: Flutter.)

~~Petzy~~ is a versatile application that brings together pet owners and care providers in a seamless and convenient manner. By connecting pet-boarders and dog-walkers with pet-owners, Petzy offers a convenient platform for exceptional pet care services. Furthermore, it empowers pet-owners to effortlessly locate and access nearby veterinarians while providing a seamless shopping experience through our premium pet-store.

- Problem-Solving
- Adaptability
- Attention to Details

HOBBIES

- Reading
- Travelling
- Video Games

YUMMY (Frontend: Angular)

Yummy is a sophisticated restaurant application that seamlessly enhances the dining experience. With Yummy, customers can easily access enticing menus, effortlessly place orders, and enjoy the convenience of doorstep delivery.

TRAVELX

(Backend: APIs through Node.js and MongoDB. Client: React.)

TravelX is an advanced travel agency application that empowers users to effortlessly search, book, and embark on unforgettable destinations.

With TravelX, users gain access to our curated selection of special tours led by expert guides, ensuring a personalized and enriching travel experience.
